

Mentoring SMEs to Achieve Potential. Help to Grow.

Manchester Metropolitan Universities, Centre of Business excellence, approached BPO with a desire to leverage mentoring and peer group facilitation services for participants of the Help to Grow Management Programme. This initiative aimed to help SME business owners and senior leaderships team to boost performance, leadership and increase resilience.

Here is what two individuals supported by BPO, Director Heather Beckett has to say:

"I worked with Heather during the Help To Grow initiative. Heather was able to easily digest our perceived complications of a product and offer clarity on future marketing directions, as well as key company organization strategy. Heather often cited key resources for further consideration as well as pulling from years of experience. Loved working with Heather who always demonstrated energy, empathy and encouragement. Would thoroughly recommend Heather and her unique skill set to better yourself professionally or further develop your organization.." Steven Lindley.

"Heather is able to ask the right questions to enable her to gain a deep understanding of the many layers of an organisation and how they interlink. She introduces processes, models and theoretical tools seamlessly throughout. Before you know it, you have a clear, logical and achievable plan in place! I very much recommend Heather, she is also a truly lovely person." Brett Mendell
